**How to read the MPF Performance Table**

Growth: The performance is calculated on the basis of bid-to-bid or NAV (net asset value)-to-NAV, gross income reinvested at ex-dividend date, in Hong Kong Dollar.

Data as at:

30 June, 2010

Latest Price Quote: this is the latest NAV (net asset value) or bid price for each unit of the fund.

Sector: To ensure that fair comparisons are being made, the MPF are grouped based on the classification assigned by the Mandatory Provident Fund Schemes Authority. Within each sector, the funds are listed alphabetically but have the ranking displayed for each fund against the others in the sector for each time period.

Lipper Leader Fund Ratings: Lipper Leader measures are a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. The Lipper Leader Fund Ratings program uses investor-centered criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns. The strength of the Lipper Leader measures, built on three-years of historical performance, is their use in conjunction with each other. They can be molded together to find a fund that meets the particular characteristics and interests of the investor.

Lipper Leader Fund Ratings for the Hong Kong MPFs are based upon Lipper's Global Classifications system. Lipper Leader Fund Ratings DO NOT take into account the effects of sales charges. The Lipper Leader Fund Ratings are subject to change every month and are based on an equal-weighted average of percentile ranks for Consistent Return, Preservation, and Total Return metrics over three-year periods. The highest 20% of funds in each peer group are named Lipper Leaders, receive a score of 5, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2, and the lowest 20% are scored 1. Scores may not be calculated for a fund due to the following reasons: the fund may have less than three years of daily NAVs, the fund may not have reported sufficient daily NAVs to Lipper or the fund may report NAVs on a delayed basis. The Lipper Fund Ratings calculations span equity, fixed income and mixed asset funds only. Lipper Leader Fund Ratings are not intended to predict future results, and Lipper does not guarantee the accuracy of this information. More information is available at www.lipperweb.com.

**MPF Performance Table**

**Data source: Lipper - A Thomson Reuters Company/Towers Watson/FTSE**

**FUND NAME**

**LIPPER GLOBAL CLASSIFICATIONS**

Total Return: Lipper ratings for Total Return reflect funds' historical total return performance relative to peers.

Consistent Return: Lipper ratings for Consistent Return reflect funds' historical risk-adjusted returns, adjusted for volatility, relative to peers.

Preservation: Lipper ratings for Preservation reflect funds' historical loss avoidance relative other funds within the same asset class. Preservation ratings are relative, rather than absolute, measures, and funds named Lipper Leaders for Preservation may still experience losses periodically; those losses may be larger for equity and mixed equity funds than for fixed income funds.

**Footnote:**

1. The MPF System aims to provide retirement protection for the working population. You should take a long-term approach to capitalize on the long-term growth potential offered by the fund.
2. The benchmarks provided are for reference only and may be different from the benchmark of any particular fund in that category used in managing that fund.
3. Where there are funds with multiple classes of shares, and thereby with different fees, Lipper will show the fund price of the class with the highest fee. Therefore investors may see slight variation in prices depending on their subscription.
4. MPF performance data source: Lipper - A Thomson Reuters Company.
5. Benchmark data source: Towers Watson / FTSE.
6. Because of the diverse nature of guaranteed funds it is not appropriate to make comparison within this sector. Therefore no benchmark and rankings are provided.
7. Because of the Unit Deduction Policy of MPF Conservative funds it is not appropriate to make comparison within this sector. Therefore no benchmark and rankings are provided.
8. Manulife MPF Interest Fund is a non-united fund that declares and credits members with interest every month. Return figures and ranking are included in the MPF Performance - Monthly Table but those figures and ranking are not tracked in the MPF Performance - Weekly Table.
